

California-Nevada Chapter

California-Nevada Chapter of the American Fisheries Society Spawning Run

This year's Spawning Run course will start in the northwest parking lot of Lake Natoma Inn. The out and back course begins with a short stretch of dirt and continues along a paved path for 2.5k (1.55 mi). The run ends at the starting point for a total of 5k (3.1mi). Chalk will be used to mark the course at intersections and a line across the path at the turn around point. As this route is along a public path, please be cautious of other bikers, walkers, runners, etc.

The clock will start at exactly the same time for everyone. Kathleen Berridge will be at the finish line giving people numbers in the order they finish.

Please contact Kathleen Berridge (kberridge@esassoc.com) for additional information.

The first female finisher and first male finisher will each get a gift card to REI.
